

WHAT! ANOTHER CANDIDATE COMIN'

Roosevelt's Friend Pinchot Sends Out Call for Meeting To Name New Candidate

(By Associated Press)
Chicago, June 14.—A declaration of Amos Pinchot, a member of the committee of forty-eight, said there positively would be a new party presidential candidate in the field. Rumors that La Follette would lead the ticket as a presidential candidate and announcement of the campaign in behalf of the republican nominee Harding, would be started promptly, were outstanding developments following the republican national convention.
Pinchot said the "Republican party had driven away millions of voters who followed Roosevelt, Johnson and La Follette" and that the new party will represent them.
Reports regarding La Follette's possible candidacy are less clearly defined.
Pinchot asserts that the Republican National Convention "ignored most of the serious problems and mentioned others only to reveal its unwillingness to face them honestly."

WHAT CANADA SAYS OF NOMINATIONS

Montreal, June 14.—The Toronto Star comments on the large sums of money spent by the candidates defeated for the republican nomination for president and says "Yet Harding, perhaps, is as sound a candidate as could have been chosen."
The Manitoba Press thinks Harding is not likely to make much of an appeal to the restive and unattached voters and that the democrats may "find in McAdoo or another candidate that may appeal to these elements."

The Paris Version
(By Associated Press)
Paris, June 14.—The Echo de Paris says Harding's nomination is a "triumph of bosses." The Journal says Harding is champion of the opposition to the treaty of Versailles in the American Senate but asserts "all Frenchmen are greatly satisfied with the elimination of Johnson, who never favored France."

Coolidge Back On Job After V. P. Nomination
(By Associated Press)
Boston, June 14.—Gov. Coolidge returned to his desk at the State House today to "finish his job." This word came from the executive chamber in reply to a question whether he would resign or devote himself entirely to the republican campaign in the interests of Senator Harding and himself. Telegrams continued to pour in today congratulating him upon his republican nomination for the vice presidency.

London Says It Looks More Like Democracy
(By Associated Press)
London, June 14.—Several news papers here refer to Senator Harding as the "dark horse" nominee and infer here that he presents a republican compromise. Two or three journals assume the result of the Chicago convention opened the possibility of the election of a Democratic candidate which was heretofore regarded as extremely improbable.

Harding's Well, Thank You
Washington, June 14.—Senator Harding, republican nominee for president, who arrived here last night from Chicago, put in a busy day today receiving congratulations. He announced for the present he would have no statement to make. He seemed in good humor and posed for moving picture men and kept up a running fire of humorous comment.

Weather For Kentucky

Generally fair and continued warm weather tonight and Tuesday.

PAVING STARTED MONDAY MORNING

Transformation of Streets of City Begun—New Machinery and Many Men
Monday morning at 7 o'clock, the big new steam excavating machine, brought to Richmond by Lampton & Burke for use in paving the city streets, was put in operation, and its having a capacity of four square yards in as many minutes, gives the assurance that rapid headway will be made. Four big trucks will be busily engaged constantly disposing of the material removed from the streets.

The curb and gutter work, which is rapidly being finished, is preceding the excavation work, and the big shovel and grader is being followed by the concrete mixer and steam roller, and the thoroughfare, after having been traversed by these operators will be ready for the asphalt mixing machine, which is already here, and will be ready to be started as soon as the other work is gotten out of the way. The first work, the curb and gutter, is being closely followed by the excavation work and the third operation, that of the grading and concrete, will be followed by the making and applying of the asphalt, which will mark the finishing of the work. The improvement was started at College street and will be continued north towards Main street. This will be continued according to the finishing of the curb and gutter work, and Contractor Graham, who has this in charge, said he would cause no delay, since he would be able with his force of men to keep ahead of the other workers. There was another shipment of men to Richmond Sunday from Louisville, and it is expected the force will be further increased, since it is the intention of Lampton & Burke, contractors, to push the work as rapidly as possible. The company has completed a contract at Paris, as well as at Louisville. The new machinery was bought especially for the Richmond job and is being put to use here for the first time.

CONVENTION FOR GOOD ROADS OPENS

The annual convention of the Kentucky Highway Association, composed of county judges, fiscal courts, etc., Kentucky state road engineers and all other allied interests pertaining to good roads, will be held in the armory, Jefferson county, Louisville, beginning Tuesday.
This will be the largest road gathering that has ever been held in the city of Louisville and the state of Kentucky.
The committee which has charge of this affair has prepared an excellent program for the occasion, including entertainment and social features, in addition to the big exhibit of machinery in the Jefferson county armory.

SWINEBROAD HERE
Col. G. B. Swinebroad, the sale king, was over from Lancaster Monday looking at some Madison county farms which he may soon handle for sale. He was accompanied by his son. On Saturday he sold the 65½-acre farm belonging to Mr. E. M. Shelley at auction to Mr. J. H. Branaman, of Conway, Rockcastle county, at \$300 per acre. Possession will be given on January 1, 1921.

MUCH DISCUSSION OF FUTURE WHEAT TRADE
A considerable amount of discussion is taking place in grain and milling circles concerning the subject of future trading in wheat. During the war period wheat was taken off the grain exchange, but now that it is no longer under Federal control it will probably go back to its old place. However, the question is—when and how?

The Warren County Strawberry Growers' Association has just shipped four cars of berries to eastern markets, making a total of 179 cars during the season.
Mrs. Maggie Hamilton Starks, aged 74, died at Paris following a long illness. She was born in Bourbon county and for many years taught school in Lexington.

JOHN R. GIBSON PASSES AWAY HERE

Prominent Son of Madison Succumbs After Being Brought Home for Treatment

Friends were greatly shocked and deeply grieved early Monday morning when it became known that Mr. John R. Gibson had passed away at the home of his mother, Mrs. Ellen Gibson, where accompanied by his wife and mother, he came from Cincinnati Friday evening hoping that he might derive some benefit by the change. But all efforts failed and the end came Monday morning.
Mr. Gibson had been very actively engaged in the copper and sulphur mines of Texas for the past few months and it thought over-work was the cause of his declining health. He was about 50 years old, and is survived by his wife, who was Miss Lucy Magoffin, of Virginia, two children, Maria and John Jr., and his devoted mother, Mrs. Ellen Gibson. He has been for many years a member of the Christian church. Funeral arrangements had not been made as the Daily Register went to press and will be announced later.
Deepest sympathy goes to those who are so suddenly bereft of an affectionate son, husband and father. May the loving Heavenly Father comfort and sustain them in their great loss.

Mrs. Dillon Dies At London

A dispatch from London to Mrs. Wm. Jones, conveyed the news of the death of Mrs. William Dillon at London. She had many friends and acquaintances in Richmond, who sincerely regret to hear of her death. The remains will be interred in Crab Orchard Wednesday.

INCIPIENT BLAZE FROM DEFECTIVE FLUE

Monday afternoon at 12:59 o'clock, a telephone call summoned the city fire truck to the home of John R. Payne, Estill avenue, where fire, caused from a defective flue, created a loss estimated at \$15. The shingle roof would have been destroyed in a short time had it not been for the prompt action of the city firemen. The truck was in charge of Stone Maupin, Mose Nelson having gone to dinner when the alarm came.

Richmond I. O. O. F. Attend Lexington Memorial Day

More than thirty members of Richmond Lodge, I. O. O. F. were in attendance Sunday at the annual memorial day exercises at Lexington. There were thirty in the line of march, and they occupied a position well in front in the procession marching to the cemetery. Richmond was also extensively represented by the D. of R. under the leadership of Mrs. Ben Bennett. The Lexington lodge attended the local exercises one week ago, furnishing a band, and this same organization furnished music for the service.

One Killed; Many Injured

(By Associated Press)
Chicago, June 14.—A Pere Marquette passenger train, loaded with week-end parties from Michigan summer resorts, struck a freight train south of Chicago today, and George Bateman, of Grand Rapids, conductor of the passenger train, was killed. More than a score were injured.

Earl Garrison, of Newport, is the guest of his mother, Mrs. J. B. Adams, here.

Lonnie Johnson, of Louisville, charged with the killing of Chester Stowe, who escaped from the Hickman jail some time ago, is said to be under arrest in a small town in New Mexico. He will be brought back to Kentucky.

Paul Gentry departed Sunday night for Blue Ridge, N. C., where he will attend the Blue Ridge Y. M. C. A. conference. He will be absent ten days.

Mr. and Mrs. Cecil Simmons will depart Tuesday for Miami, Fla., to make their future home.

MADISON G. O. P. FOR WINNER HERE

Senator Warren Harding, of Ohio, won the republican nomination for president on the 10th ballot at the Chicago convention Saturday night. His victory was foreshadowed by the last dispatch carried by the Daily Register that afternoon. Gov. Lowden released is pledged delegation and the landslide to Harding followed.

Gov. Calvin Coolidge, of Massachusetts, was nominated on the first ballot for vice president. He had received a number of votes for president during the balloting. Madison county republicans, except the enthusiastic Roosevelt followers seemed pleased with the nomination of Harding. Madison county republicans, county convention instructed for Harding, one of the very few counties in Kentucky that did so, or in fact that instructed for any candidate. Harding has many warm friends here among the old stand-pat crowd, but like dispatches say, is the case elsewhere, the more progressive element of that party, and in particular those who followed the Roosevelt fortunes, are not pleased to see so prominent a member of the "Old Guard" get the big plum.

Story of Harding's Life

Warren G. Harding has always been a resident of Ohio, which state he has represented as United States Senator since 1914. In private business life he is publisher of the Marion, Ohio, Star. He was born on a farm near the village of Blooming Grove, Morrow county, Ohio, November 2, 1885, the eldest of eight children. His father, George T. Harding, was a country doctor whose forebears came from Scotland. Before going to Ohio, the Hardings were residents of Pennsylvania, where some of them were massacred by Indians. Others fought in the Revolutionary War. The mother of Warren, Mrs. Phoebe Dickerson, was descended from an old time Holland Dutch family the Van Kirks.
In his youth Warren Harding lived the life of a farmer boy, attending the village school until 14 years of age, when he entered Ohio Central College at Iberia, from which he was graduated. As editor of the college paper he first displayed a talent for journalism. He was obliged to stop school now and then and earn the money with which to pursue his college course. At one time he cut corn, at another painted barns, and at still another drove a team and helped to grade the roadbed of a new railway. At 17 he taught a district school and played a horn in the village brass band.
At odd times he worked in the village printing office, in time becoming an expert typesetter and linotype operator. He is a practical pressman and a job printer, and as a "make up man" is said to have few equals. The luck piece he has carried as a Senator is the old printer's rule he used when he was "sticking" type.
In 1884 Dr. Harding moved his family to Marion. A short time afterward the father purchased for Warren Harding the Star, then a small paper.
On the paper Warren Harding performed every function from devil to managing editor.
In all the years the Senator has owned it there has never been a strike or a threatened one.
Senator Harding is closely identified with many other large business enterprises in Marion and other parts of the state. He is director of a bank and several large manufacturing plants and is a trustee of the Trinity Baptist church.
Mr. Harding has twice represented the 13th Senatorial district of Ohio in the state legislature and served one term as Lieutenant Governor. At the 1914 election Harding was elected United States Senator by a majority of more than 100,000, running 73,000 ahead of the next highest on the ticket. In the Senate he is a member of the Committee on Foreign Relations. Senator Harding married Miss Florence Kling in 1891.

DISCIPLES' FUND TOTALS \$269,958.48

General Education Board Gift of \$80,000 Assured—Work Still Being Carried On

Lexington, June 14.—Gifts from Kentucky churches to the Disciples of Christ World Movement fund in the state totaled \$189,958.48 up to Saturday morning, according to reports received by Secretary Clifford Weaver, in charge of the offices of the fund in the Central Christian church. The gift of the General Education Board, conditioned upon the raising of \$160,000, which has been achieved with more than \$20,000 to spare, swells the total to \$269,958.48.
Reports were received Saturday morning by Secretary Weaver from Paducah, Harrodsburg and Versailles. Rev. Roy Rutherford's church at Paducah has raised \$4,500 and has not yet finished the canvass of its membership. Rev. T. E. Sellers, of Harrodsburg, reported that at a banquet given Thursday night \$4,000 was subscribed and that the remaining \$2,540 of that church's quota was assured. Rev. E. C. Lacy, of Versailles, reported the raising of \$3,400 on a quota of \$4,470 and the work still going on.

Dr. Joseph W. Hagin spoke at the Danville Christian church Sunday. Dr. R. H. Crossfield spoke at Morgan and Falmouth, and Secretary Weaver at Woodland and Chestnut street Christian churches in Lexington.

WILL PROSECUTE TO SAVE BLUEGRASS

First Arrest Made In Attempt To Set Example To Eliminate Old Practice

John White, a young colored man, was taken into custody Saturday afternoon as a result of a complaint upon the part of Louis Neal, who employed him, it is said, to strip blue grass seed at his farm. White, according to the contract, was to gather the seed on the shares. He is said to have been a diligent operator. However, it was the manner in which he did the "stripping" that caused the complaint to be made. The owner of the farm is said to have stated that it was not his intention to cause the boy's incarceration particularly, but to teach a lesson to a number of men and boys who have been in the habit of going to his and other farms and helping themselves to quantities of seed, without the formality of asking permission.

This has been a habit indulged in for years to a considerable extent with little or nothing said about, but the price of the product has changed the aspect, and owners of blue grass nowadays are looking after it with special interest. The White case will be heard in the county court before Judge W. K. Price, probably late Monday evening.

This is the first instance of arrest being made on this charge for some time, but those raising the seed stated they are compelled to take such measures, owing to the increase in the practice of those who come unsolicited and help themselves.

CROWDS THROG BOONESBORO BEACH

Sunday was the biggest day of the season at Boonesboro Beach, hundreds enjoying the pleasure of the place. There were visitors from far and near, a large party of Cincinnatians being present during the day. Bathing was apparently at its height, and thoroughly enjoyed. The warm weather of the past week has put the water to the favorite temperature, it is said, and a dip into the waters of the Kentucky is very refreshing. The various improvements have changed the general appearance of the place to an unusual degree, say those who visited the resort for the first time this season.

STATE GAS TAX COMES THURSDAY

On and after Thursday, the state tax of one cent on gasoline will be in effect and the first report of the new law will be made soon after the first of the month by County Clerk Jennings Maupin.

According to the law, it is the duty of every retailer as well as wholesaler of gasoline, to make a report to the county official, where he is expected to register the business. He will be entered as a dealer upon the books and the subsequent reports which will be kept there will be made out monthly and turned in to the state office, together with the amount collected for the same. It is expected, owing to the extensive use of the fluid, that there will be a very creditable fund arising from Madison county.

The use of gasoline for other than automobile use, will figure greatly in its consumption here, it is said. Indications are that there will be busy time ahead the last of the week at the office of County Clerk Maupin when all of the dealers of the county make their register.

BOUNTIFUL MELON CROP IS PREDICTED

Wm. Walters, living near Lock No. 11, reports that an unusually great yield of melons is almost assured for this section of the state this year. The rains, together with the cool nights and frequent warm periods, he declares, is the best variation of weather obtainable for the growth of plants, and the melon prospect was never better. There is a greater acreage than usual this season, it is said, both in the way of watermelons and cantaloupes. This report is being issued from various directions, showing that the crop is very extensive. Mr. Walters, who claimed to have more than 6,000 plants said that he never witnessed such a splendid crop.

Manager McCoy is of the belief that his aggregation is at present one of the strongest amateur clubs in this part of the state, and a number of games are to be booked before the close of the season.

BOY DROWNS AT RIVER SATURDAY

Eleven Year Old Son of Mr. and Mrs. Trimble, of Winchester, Meets Sad Fate

Joseph Trimble, the 11-year-old son of Mr. and Mrs. E. F. Trimble, of Lexington avenue, Winchester, was drowned Saturday in Kentucky river, at the lock, where he had gone with a picnic party. The body was not recovered until Saturday night after a party had spent several hours dragging the river.

The boy, who was a member of the Sunday School class of E. R. Tate of the First Christian church of Winchester, was en route with the other members of the party and the county line was being crossed for dinner, when the accident took place. Young Trimble started to wade in the river, and he stepped off a ledge into deep water, and his plight was not discovered until he was sinking for the third time. It is said that he did not call for help until sinking the third time and there was no time for the terrified visitors, who did not realize his peril, to rescue him. A searching party was soon formed and while the immediate vicinity where the body disappeared was dragged for some time, no trace of the body was discovered until late Saturday night. The accident cast a gloom over the remainder of the party, who sorrowfully watched and assisted in the search for the body the greater part of the afternoon.

Young Trimble was a favorite among the children and grown up people and was an unusually bright young fellow, having won several medals in his classes at school. He is survived by four sisters and brothers besides his parents.

TWO CHANNEL CATS WEIGHED 100 POUNDS

Saturday and Sunday proved big days along the Kentucky river in the vicinity of Lock No. 11, as many Richmondites are there with pole and line. Wm. M. Walters, one of the old residents of that locality, stated while in the city Sunday that there were more fish being caught from the Kentucky river there now than ever before. Until the past week there has been what is known as a high tide, and this is rapidly disappearing, which is believed by old fishermen to be responsible for the good fishing.

Mr. Walters, to prove his assertion relative to the fish being caught, brought two "samples" to the city, in the way of channel cats, one weighing 55 pounds and the other 45 pounds. On the city scales, the two fish tipped the scales at the 100 pound mark. Since there is a ready market here for such fish, the supply was sold within a short time. Many, it is claimed, are making the catch of their lives, and Mr. Dave Chamberlain who assisted Mr. Walters in landing the two big cats, has become a more enthusiastic fisherman than ever, if such is possible.

Certain-teed Roofing Resists Fire

Certain-teed Roofing is fire retarding and spark proof; consequently your fire risk is greatly reduced when Certain-teed roofs your buildings.

Burning embers carried by the wind from nearby fires are always a menace to old fashioned, inflammable wood shingle roofs. Certain-teed forms a permanent protection against sparks and embers and all such carriers of fire.

Because of the great risk of general conflagrations in congested districts, and of the lack of safe fire protection in the outlying and rural districts you should get this Certain-teed protection on your buildings.

In addition to being fire resisting, Certain-teed is a most economical roof. It resists all forms of weather attack—rain, sleet, snow, sun, etc. It is guaranteed by the manufacturer for 5, 10 or 15 years, according to the weight you select.

There is a scarcity of many types of roofing products—you can always get Certain-teed Smooth Surfaced Roofing, the most economical and serviceable roofing to be obtained.

See your dealer at once. He either has Certain-teed or can get it quickly from a nearby Certain-teed warehouse.

EXPECT BIG THINGS OF TOM GRUBBS SOON

The appearance of Tom Grubbs, of Mt. Sterling, former University of Kentucky Wildcat hurler on the players' bench of the New York Giants, is noted in the baseball columns of the New York Sun and World. According to these newspapers, a thorough reorganization of the Giants is in progress to get the once terrors of the league out of the cellar. All of the new men will have their chance in the near future.

One of the papers announces that the young Kentuckian is in fine condition and intimates that there are some unusual possibilities for the Giants and that the Mt. Sterling lad is liable to transform these "possibilities" into realities.

ALUMNI BANQUET AND OTHER AFFAIRS

The events dealing with the Alumni Association Friday morning and evening marked the closing of the events connected with the Eastern Normal commencement.

At the business meeting Friday morning, H. H. Gibson, graduating this year, of Whitesburg, was chosen president of the association, while Prof. I. H. Booth, of the school, was retained as the secretary.

Friday night the attendance at Alumni banquet was attended by 30 former graduates, but the number was greatly reduced since the city schools where many of the members are teaching, have not closed. There were interesting speakers and the program was one of much enjoyment.

The Summer school in the Model department will not begin until Tuesday morning, it was announced late Saturday afternoon.

COUNTY TEACHERS EXAMINATION SOON

Plans are being made for the regular teachers' examination on Friday and Saturday, June 17-18. This examination, which will be for both white and colored, will be held at the Eastern Normal. This examination is open to all who desire to take the examination. Teachers in the county schools who take this examination will receive their grades before time for taking up the next term, which will begin throughout the county on July 19, except the colored schools which will open on July 12. There are 22 of these, and the instructor have nearly all been chosen. It is expected that there will be the usual surplus of instructors this year. There have been many colored teachers furnished other counties by Richmond, as well as white instructors and it is the opinion of County School Superintendent Edwards that there will be another big list this year. The attendance and deportment of the colored schools during the past year has been very creditable.

Rain Helps Planting

The rain of Sunday night is just what many of the farmers have been wanting; it is said, since it will admit of further planting of tobacco. The setting out of plants ceased a few days ago, owing to the hot weather. Some who have small acreage, have finished setting their crop, and report it as doing well.

"In the first place, God made idiots; that's for practice; then he made school boards."

What Is a Person to Person Long Distance Call?

ON person to person calls the person originating the call specifies a particular person to be reached. When a person to person call is made, the company not only must do everything that it does in a station to station call to establish a communication, but must do it at a time when the particular person called will be available, and will, as a matter of fact, talk. Obviously, the company has no control over the whereabouts of persons called, and there is involved an additional expense and circuit use, and uncertainty, caused by conditions over which the company has no control or influence. So that it is both logical and proper that the charge for a person to person call should be relatively more than the station to station call.

Orders for person to person calls are accepted only under the condition that a limited charge will be made when under certain conditions, it is impossible to establish communication between specified persons. This charge is classified as a "report charge."

By studying their needs, toll users can effect economies and make the service more valuable and convenient.

FRANK RIPPY, of Anderson county.

The republicans selected a strong personality in the nomination of Senator Warren G. Harding, of Ohio, as their presidential candidate, on the 10th ballot at Chicago Saturday night. Although credited or discredited with being a staunch member of the "Old Guard" of his party and opposed to the progressivism of Roosevelt, and present day political idealists, Harding's record has been singularly of service to his state and nation and his life one that will commend itself to everyone. It is perhaps within the province of newspaper editors to discuss the man and his personal achievements more thoroughly than other critics, for as a fellow worker in the ranks of journalism, few of them who have not studied carefully both the record of the republican nominee, and at the same time that of Gov. Cox, of Ohio, also a "country newspaperman."

Harding will appeal to the best traditions of the old stand-pat crowd on political lines. What the progressives will think of him remains to be seen. Personally he seems a strong candidate to us. But that's as far as we can see him. He will have to run upon the hodge-podge of an alleged platform that his party put under him. And what a platform. Its main plank should read "Down with Wilson," nothing else matters. Almost every big question before the country to-

day is straddled. The plank on the peace treaty and league of nations can be read any way you want it. Platitudes and promises take up the remainder of the wondrous document, but who is there to put an ounce of faith in anything the platform says with the illustration of the recent republican congress and its flagrant inefficiency, incapacity and failure to accomplish anything so promptly before the country? Harding's personal worth cannot counterbalance that platform. It's positively a joke.

Those Wood boosters at the Republican National Convention, found out mighty short and quick that they weren't dealing with the usual southern brand of republican delegates when they sought to trade the vice presidency to Gov. Morrow of Kentucky, for some Wood votes. Frank Hitchcock, the Wood chief

has "handled" southern republican delegates so long, that he must have thought that Kentuckians could be lined up as easily as the negro delegates from Georgia. Ed told him where to "get off" in short order. Gov. Morrow's bald statement that "We don't play that kind of politics down our way" might quickly brought the "Blond Boss" to a realization of the fact that Kentuckians couldn't be "bought" even with such a bait as the vice presidency dangling before them. Gov. Morrow and Hirt deserve credit for sticking to their friends the Lowden ship, until he went down and then they lead the switch to Harding.

CARNIVAL PLANS ARE NOW MATURING

Plans are steadily maturing for the carnival to be held here later for the school children of the county and there will be exhibitions of the work of scholars prepared and these will be exhibited during the carnival, the program of which is being perfected. There will be a parade, together with other features that will go far towards making the day a gala one for all in attendance. It will be the aim of the members of the county school board to have the parents of as many students present as possible, as well as the list of teachers, and make the day a "reunion day" for the benefit of all.

According to the plans now under way, there will be a most elaborate program and the event will be more extensive than anything ever held in Richmond. It will give all scholars, from the oldest to the youngest, the opportunity to come to Richmond for a day, to meet and greet their teachers, and the bringing together of parents and teachers as well.

**Entertains With
Luncheon-Bridge**

One of the most enjoyed of the nu-
merous social functions of the past
week was the luncheon-bridge given
by Mrs. R. C. Boggs, Saturday, to
which a large number of friends were
invited. The rooms were prettily de-
corated with rambler roses and other
spring flowers, the color scheme of
pink and white being carried out in
the mints and ices. A very delicious
and substantial ice course was serv-
ed. Mrs. W. P. Millard won the first
prize, an attractive flower bowl; the
second prize to Miss Mollie Fife, Mrs.
Poggs' guests included:

Mrs. B. J. Clay, Mrs. Julian Tyng,
Mrs. Preston Smith, Mrs. C. A. Keith,
Mrs. William Howard, Mrs. H. B.

and Mrs. Kit Chenault.

Entertained for Guests

Mrs. L. B. Weisenbrugh entertain-
ed very delightfully Friday after-
noon about sixty of her friends being
included in the invitation. The hon-
orees were Mrs. Clifton Cowan and
Mrs. Carrie Henry, of Gulfport, Miss.,
and Mrs. Overton Harber. An inter-
esting game of bridge was played,
the first prize being won by Mrs. J.
P. Chenault, and the second by Mrs.
Warfield Bennett. Also, a beautiful
prize was awarded to each of the
guests of honor.

Double Wedding

A double wedding was beautifully
solemnized Saturday afternoon at 1
o'clock at the home of the officiating

STUDENTS ACTIVE; GOING AND COMING

While many of the students at
Eastern Normal have departed
for their homes, being anxious to
leave, many are reluctant, and
some have decided to stay during
the special summer term and be
better prepared for the future.
There are many new students be-
ing enrolled for the summer term,
and the list is already greater
than anticipated.

This special work appeals es-
pecially to teachers, who are an-
xious to gain knowledge on special
subjects during the summer vaca-
tion.

The Model School term will
open Tuesday morning, when it
is expected there will be a greater
number of younger students
enrolled than usual. The first
began to arrive last week and
there are already many ready for
the opening. There will be spe-
cial subjects this year to make
the work even more interesting
than heretofore. There will be
visitors from various other
schools who will take up work
here.

RARE COIN FOUND BY HENLEY PORTWOOD

Henley Portwood, while plowing
corn on the farm of George Phelps on
the Lexington pike, found a coin that
is attracting the attention of a num-
ber of his friends. He brought it to
the city and a dealer said it was of
the "one-dollar denomination" and of
Mexican or Spanish origin. It is about
the size of the U. S. silver dollar and
free from rust, although it is believed
to have reposed undisturbed in the
ground for a period of many years.
The coin has a peculiar coat of arms
and bears a date of 1811. The local
coin dealer said there was a big pre-
mium on the coin, which contained
about 80 per cent of silver.

SWIFT'S PRODUCE REVIEW
Cream deliveries during the week
show some increase. Prices remain
generally unchanged with a good de-
mand for butter, both for storage and
current consumption.
Quality of butter manufactured
could be improved if more attention
was given to the care and handling
of the cream on the part of the pro-
ducers, and if the cream was mar-
keted more frequently.
It is very important, if cream is to
bring top prices, that it be clean—
warm cream should never be mixed
with cold cream.
The highest temperatures through-
out the producing sections are affect-
ing the quality of eggs marketed, al-
though there has been but little
change in the market quotations. To
secure the highest prices, eggs should
be gathered daily, kept in a cool place
and marketed frequently.
It should be remembered that roos-
ters are not necessary for egg pro-
duction; that infertile eggs produced
during the summer months have bet-
ter keeping qualities and result in
better prices.
A large volume of poultry was
marketed during the week, resulting
in slightly lower prices.
The supply of young chickens is in-
creasing and bringing good prices.

CUPID AHEAD OF GAME
With the issuing of three addition-
al marriage licenses since Saturday
noon, little Dan Cupid is ahead of
the game, with an average of one and
a fraction per day. One bride a day
during the month of June was the
good start made, which average has
been maintained thus far. The lat-
est trio to be granted licenses is:

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years
ago would lose to you the original cost, plus another \$5,000.
For it costs \$10,000 now to build the \$5,000 home of 1914.
Likewise the loss of today of the business property that
cost \$50,000 before Germany went mad, would be \$100,000—
probably \$100,000 would not replace it.

POPULATION INCREASE

DURING PAST 10 YEARS

(By Associated Press)

Washington, June 12.—Fifty-eight of the more than 1,100 cities and towns and villages in the country whose 1920 census has been announced more than doubled their pop-

ulation in 10 years. Of these places 33 were in the north, which includes New England, New Jersey, Pennsylvania and the states north of the Ohio river; Missouri and Kansas; 17 were in the south, which includes all states south of those enumerated; and eight were in the west, which in-

cludes all states west of North and South Dakota, Nebraska, Kansas, Oklahoma and Texas.

BUMPER WHEAT CROP IS NOW PREDICTED

Experienced Miller Explains Situation—Also Talks of Corn and Tobacco in Madison

With reasonably favorable weather, there will be a bumper wheat crop in Madison county, and this section of the state, according to the opinion of Charles I. Morgan, of this city, and he should know, for he has had considerable experience with grain, wheat especially, since he has been a miller for the past 40 years.

Mr. Morgan, who is at the head of the milling department of the Zaring company, said today that the middle season wheat, meaning that which was sown neither late nor early, but during the middle of the season, was the best developed he had seen for some time, and it had not been molested by insects; the earlier planting as well as the late, he explained, was in good condition, but not as sturdily developed as was that sown during the middle of the sowing season. The informant declared that with present indications continuing, the Madison county crop this season would be not only a boon to the farmers, but the country, since there was a better stand than had been for years. There is evidence of the fly, it is said, in some localities, but this is not expected to do much damage at this time of the year, it is claimed, and there is a large acreage of wheat; much greater than was anticipated. The weather has been warm for wheat, according to Mr. Morgan, but it has such a start that no injury is anticipated from this score. The cooler nights are great for the development of the grain at this season of the year.

Tobacco, set out just before and after the recent rains, is showing up in good form, and corn is said to be flourishing in this and adjacent counties. "There is every reason," Mr. Morgan said, "for the farmers to rejoice, and while tobacco is one of the main issues in this section of the state, the average farmer will not have to wholly depend upon his tobacco crop, for there will be one of the most extensive grain harvests in years."

PIONEER AND HONEST FISHERMEN RETURN HOME

The fishing party, spending several days at Lock No. 11, comprised of W. S. BIG AUCTION SALE

The Best Farm in Marion County

268 ACRES

SUBDIVIDED INTO "BABY FARMS" AND LARGER TRACTS

SATURDAY, JUNE 19th

10 O'CLOCK

Just outside city limits of Lebanon, on St. Mary's Pike.

A "High Class" farm in every particular with "A No. 1" improvements. For 40 years the "Home" and "Stock Farm" of the late W. C. Rogers, former president of the Marion National Bank, who took a pride in making it the prettiest home and farm in the county.

Any written description will not do it justice. You must see it to appreciate it. The farm will appeal to the man, the dwelling and surroundings will appeal to the wife. Both will be satisfied.

2 Sets of Improvements—9 room metal roofing dwelling, 2 halls, 3 porches, 1 sun porch, pantry and built in refrigerator, bath room with handsome fixtures, city water works in dwelling, with hydrants in yard, garden, fields, lots and barns. Cistern, wells, springs and ponds. Beautiful yard with fruit and shade trees; concrete walks attractive shaded avenue and drive from pike to yard. 3 room servants house in yard; smoke house with cellar; all necessary outbuildings. 4 room tenant house, large stock barn, cribs, implement shed, several separate stables. New 5 room dwelling with large stock and tobacco barn.

Land is level, fertile and gently rolling. Divided into convenient fields and lots and the best of fences. This farm has been kept in a high state of cultivation and is ready right now to plow and produce the maximum of crops. A corn, wheat and tobacco farm.

Long frontage on 2 pikes, susceptible of advantageous division into a number of tracts. Can be subdivided so the purchaser may secure just the number of acres desired. Can sell you 20 acres with main improvements or increase the acreage to 50 acres, up to 100 acres or 150 acres or more. Remember WE SELL TO SUIT THE PURCHASER. Will sell a number of 3-5 and 10 acre tracts with fine building sites on the pike, just at the edge of city limits, also several "Baby Farms" at the intersection of the 2 pikes, 30 to 40 acres, or more, with second set of improvements.

About 68 acres in corn, tobacco and cow peas; 200 acres in meadow and grass, a lot of the land has not been plowed for years.

This is a Tractor Farm. A country home with all the conveniences of the city of Lebanon, one of the very best towns on the main line of the L. & N. R. R. A flourishing, growing town, splendid business houses, good streets, concrete pavements, hotels, modern homes; fine tobacco market—loose leaf warehouses; fine banking facilities, progressive citizens, churches of all denominations, splendid schools. Its new grade and high school is magnificent.

Now is the time to invest in real estate. The man who buys this land June 19th, is sure to be able to sell at a profit. Land hunger is still unsatisfied and values will increase.

Remember Swinebroad "ALWAYS SELLS" the purchasers name the price. Every bid a bona fide bid. Positively no by-bidding at my sales.

Will be sold on easy terms. In fact most any sort of terms you want.

Possession at once or any time to January 1, 1921.

Everybody come. If you are not a buyer come any way. Ladies especially invited. Brass Band. Dinner. Money and presents given away. Hear Bolivar Bond, the silver tongued auctioneer. R. H. Dever will be at the farm all the week. Call W. E. Moss or R. H. Dever at our offices in Danville or Raines and Thomas, local representatives at Lebanon.
